

Dear Environment Committee Members:

Please support HB 5293 with Amendment- AA Prohibiting Wild Animals in Travelling Animal Acts. This bill would increase public safety as well as show compassion towards the unfortunate wild animals that have so far been held captive in these acts such as tigers, lions, elephants and bears.

Also please OPPOSE SB 244- AAC wildlife, which is a sneaky way to allow cruel unregulated hunting practices.

Thank you very much for protecting the animals in our state.

Sincerely,

Sally Westcott RN  
East Windsor, CT.
